

GOVERNANCE & OVERSIGHT LAYER

Clarity across every institution you govern.

Aggregate-only · consent-first · one standard.

WHAT IT IS

Samanvay is Frae's governance and oversight layer, built for the people who govern rather than run the day to day: society and trust boards, group owners, and senior leadership. It sits above your operating institutions and rolls their performance into one calm, board-level view.

Runs on top of Saksham.

Samanvay is a layer, not a standalone system. It reads the figures your institutions already produce in Saksham.

THE APPROACH · OVERSIGHT ALTITUDE

Above, not inside

One board oversees many institutions through a single instrument, a roll-up, not another data-entry screen.

Aggregate-only, consent-first

Every institution shares aggregates, never private data, through a signed, consent-gated channel.

One source of truth

A single governed KPI master, so every number is scored against its target on one comparable baseline.

Source-agnostic

Sits above Saksham first, and other Frae products in time, on a Balanced Scorecard frame.

WHAT YOU GET

Governance Cockpit

Money, risk, compliance, outcomes and alignment, every institution.

"Needs Attention"

Which institution needs you this week and why, ranked worst-first.

Financial red-flags

Fee, dues and finance that have gone into the red, against your targets.

Compliance Calendar

Statutory obligations in red / amber / green, with maker-checker sign-off.

Governed KPI Catalogue

One versioned source of truth; definitions controlled by the board.

Consent & countersign

Opt-in, revocable sharing. Withdraw consent and the school drops from view.

READ ON ONE BALANCED SCORECARD

People

WHO IT'S FOR

Society & trust boards · group and multi-institution owners · trustees, chairpersons and directors · senior leadership overseeing more than one operating unit. First edition: education societies and trusts running multiple schools and colleges.

Register your interest.

Tell us about your society and we'll set up a board-level walkthrough. Two working days, no obligation.
